## Disasters:

### Declaration Number

FEMA-1971-AL

## Narratives

### Disaster Damage:

The tornadoes of April 2011 left a path of destruction in Alabama covering well over 1,000 miles, and FEMA estimates the State's property damage in the billions of dollars. More significant than the recovery challenges left by the devastation, however, was the loss of 242 lives - the second highest loss to tornadoes in Alabama history. In addition, more than 2,200 people were injured.

The National Weather Service confirmed that the 30 tornadoes which struck the northern two-thirds of central Alabama included five EF-4 monsters and an ER-5 colossus with 200+ miles-per-hour winds that destroyed nearly all of the rural town of Hackleburg in Marion County. Several other communities had major damage. Nearly 14,000 homes were either totally destroyed or have been declared uninhabitable.

Recovery efforts began within minutes of the storm as Alabama's municipal, county and State officials and employees (including the Governor), the Emergency Management Agency, FEMA, the Alabama National Guard, and other community agencies were joined by churches, individuals and many volunteer organizations to care for affected residents and start the process of putting their communities back together. While all 67 counties in the State are declared disaster counties, 43 qualified for both individual and public assistance from FEMA.

Reports from local areas state that in some cases it was not the tornado itself that caused damages; rather the heavy machinery used for debris removal damaged streets and underground infrastructure. Also, secondary effects such as saturation and infiltration of contaminants had significant effects on wells and septic systems in some areas.

According to information provided by the University of Alabama, Center for Business and Economic Research, much infrastructure damage was done to schools and structures used for governmental services, such as fire and police stations, environmental services, and emergency management agencies. There was also damage to light poles and power delivery towers and lines; in particular, a number of large light poles along Interstates 20, 59, and 65 were reported down or severely damaged after the tornadoes. The U. S. Department of Transportation in January of 2012 announced that \$16.6 million dollars in federal money was being allocated to Alabama for repair of highways, bridges, and other infrastructure damaged by the April 27 tornadoes. According to reports from FEMA and other sources, a total of 4 schools were destroyed; 4 other schools suffered major damage; and 7 additional schools had major roof damage. Alberta Elementary and University Place Elementary/Middle School in the City of Tuscaloosa; Hackleburg Elementary and Hackleburg High School (Marion County) were destroyed. The schools with major damage were Holt Elementary (Tuscaloosa County), Phil Campbell High School (Franklin County), Plainview High School (DeKalb County) and East Elementary School (Cullman County). Schools with major roof damage included one in the City of Jasper (Walker County) and six in St. Clair County.

A FEMA Situation Report in July 2011 listed five critical facilities that were destroyed or rendered unusable: Fire Station #18 (Jefferson County), Kowaliga Fire Station #2 (Elmore County), the Tuscaloosa County Emergency Management building, the Tuscaloosa Salvation Army building, and the Cullman County Courthouse. In addition, the Cullman Emergency Medical Services facility was listed as sustaining major damage. This list is not exhaustive, however, as Tuscaloosa had a police substation and fire station in the Alberta area rendered unusable.

## Recovery Needs:

Understanding and assessing unmet need is the first step toward long-term disaster recovery. Unmet need is the gap between total disaster damage a community sustained and the post disaster resources the community received from all sources to assist in its recovery. Resources include private insurance; federal assistance received from FEMA and SBA; and any State, local or volunteer resources received. The CDBG Disaster Recovery Program funds are designed to supplement other funding sources, in compliance with the Stafford Act (section 312) which prohibits any duplication of benefits.

Assessment of unmet need for long-term disaster recovery includes three components: housing; infrastructure; and economic revitalization. The Needs Assessment is essential to guide the development and prioritization of planned recovery activities; to assure targeting of limited resources to areas of greatest need; and to promote healing which is essential at the individual, neighborhood and community level. ADECA's needs assessment was conducted in the following phases:

Phase 1 (Public Meetings): ADECA solicited feedback through local meetings with individuals and groups and maintained on-going dialogue with local governments, regional planning commissions, and other public and private agencies.

Phase 2 (Surveys): This phase was comprised of Housing Authority and Continuum of Care surveys emailed by ADECA on July 5, 2013 to determine unmet facility needs.

Phase 3 (Applications): Applications from eligible entities were received at ADECA on July 22, 2013. Each application included a section on Unmet Needs within the locality. These applications are the primary data source on tornado disaster needs.

Phase 4 (Public Comments): ADECA will compile a list of public comments received during the public comment period (similar comments may be grouped) and the ADECA response to each substantive comment.

As stated in the Federal Register (Docket No. FR-5628-N-01 effective April 23, 2012), "Disaster recovery needs evolve over time as the full impact of a disaster is realized and costs of damages transition from estimated to actual. Remaining recovery needs also evolve over time as they are met by dedicated resources." Therefore, minor changes up to substantial amendments to the Action Plan may become necessary. Housing-Housing conditions in the wake of the tornadoes have been extensively documented by FEMA, SBA, and the American Red Cross. . Statistical information from those agencies in the hardest hit areas is provided by county (and in some cases by zip code) at the end of the Action Plan for Round 1 as Amended.

The Alabama Housing Needs Assessment reported that FEMA received 84,480 registrations from disaster victims from 43 counties, but not all of these were approved for FEMA assistance, and not all were for housing. FEMA property inspections of affected housing showed that 11,921 were insured and 12,406 uninsured for a total of 24,327 inspections. Thus, those reporting insurance and those reporting no insurance to FEMA were split almost evenly. Public Housing and Housing Choice Vouchers: The Alabama Housing Needs Assessment further confirms that 224 public housing units were destroyed and 292 were heavily damaged, with 156 displaced families. The hardest hit public housing authorities (PHAs) were in Tuscaloosa, Phil Campbell, and Hackleburg. These represent great strides in recovery.

All displaced public housing families were offered housing in vacant units. Among the families receiving Housing Choice Vouchers (HCV), 105 families were displaced from damaged or destroyed market rate units. At the time of the report, 83 (79%) had been permanently rehoused with HCV subsidies and of the remaining 20 households, 18 were pending inspection of a unit for HCV subsidy and two (2) refused assistance and pursued other housing options. HUD multi-family units had significant damage (362 units with major damage and 209 families displaced). At report completion, all displaced residents were permanently or temporarily housed while their pre-disaster units were repaired.

USDA Housing: The Alabama Housing Needs Assessment reports that 22 USDA units were damaged, with 12 units destroyed in Hackleburg. Most displaced families were re-housed in vacant USDA units. The 12 unit complex in Hackleburg was rebuilt and reopened in October, 2012.

Unmet Need – Housing: Vast needs exist regarding infrastructure restoration and economic revitalization in Alabama; however, ensuring that the unmet housing needs of the residents are met is of highest priority. HUD's Office of Policy Development and Research (PD&R) calculates unmet housing need as "the costs to repair seriously damaged housing units beyond the funds that private insurance coverage, FEMA grants, and SBA loans provide."

According to the Alabama Housing Needs Assessment dated October 18, 2011, "HUD estimates nearly \$108.9 million in unmet housing needs after taking into account losses already covered by insurance, FEMA individual assistance, and SBA loans. According to estimates, there are 575 owner-occupied housing units with an approximate unmet housing need of \$20.6 million, and 1,671 rental units with an unmet housing need of nearly \$88.3 million."

Further, the Assessment cited above states that Jefferson, Cullman, DeKalb, Tuscaloosa, Marshall, Jackson, and Madison counties have 312 (54.4%) of the owner-occupied units for total unmet needs of \$10.6 million. Tuscaloosa concentrates 70.1% (1,171) of the rental units with unmet needs and 62.5% (\$55.2 million) of the amount of rental unmet needs in the State of Alabama. Sources available to ADECA document that the unmet housing needs in Alabama are significant. According to the Alabama Housing Needs Assessment prepared by HUD, only about 50% of housing losses were covered by insurance. Therefore, housing rehabilitation and construction will be an on-going ADECA priority. Significant housing unit damage to hard-hit localities is summarized below.

Tuscaloosa County: A delay has been observed because the County does not have an on-going program related to property inspection, condemnation and/or structure removal. The County is dealing with issues on a case-by-case basis. Holt Community was identified as an area of great need, with major damage, many elderly and school-age residents, and a high poverty level. City of Tuscaloosa: According to the City of Tuscaloosa, 1,258 units were destroyed; 3,905 units were damaged (total: 5,163) with only 964 building permits to date.

City of Haleyville: The Cumens Subdivision was among the hardest hit areas in Haleyville--12 houses had major damage and 3 houses were destroyed.

City of Cordova: The residential areas near the Central Business District were destroyed./>

Town of Phil Campbell: FEMA applications indicate that 138 homes were destroyed with another 175 deemed unsafe. An estimated 224 homes have been repaired or replaced according to the most recent data.

Town of Hackleburg: Reports show 197 structures were destroyed with another 241 housing units rendered unsafe. The Town's inventory shows that 88 houses have been repaired or replaced since the tornadoes.

Infrastructure- Unmet Needs Identified by Local Areas: The first approach to determining infrastructure needs, including public facilities and debris removal, was to request that the local areas submit applications for infrastructure needed to get the community back on the path to recovery. Reports from local areas state that in some cases it was not the tornado itself that caused damages; rather the heavy machinery used for debris removal damaged streets and underground infrastructure. Also, secondary effects such as saturation and infiltration of contaminants had significant effects on wells and septic systems in some areas.

State Bond Issue: A State bond issue for \$30 million, signed by Governor Robert Bentley, included funding for the schools identified above as well as funding for Murphy High School in Mobile (damaged in a 2012 tornado).

Public Facilities Damaged: In addition, a number of public facilities were damaged or destroyed.

Unmet Need – Infrastructure: Section VI.D (2) of the HUD Federal Register Notice of April 16, 2012 directs that “Typical infrastructure activities include the repair, replacement, or relocation of damaged public facilities”. Our analysis and public comments received show that water, sewer, and roads, as well as select public facilities, should be an important focus of the disaster funding available to the State. Signification infrastructure unmet needs by hard-hit localities are summarized below.

City of Tuscaloosa: Tuscaloosa estimated their unmet need for infrastructure at \$5,796,994 (with upgrades, \$28,086,260). Damaged structures included the Curry Facility which houses operational and office space for four (4) City departments, Fire Station No. 4 located in the Alberta community, and East Police Precinct located in Alberta community. The estimate for street reconstruction and repair is \$11,000,000, with water and sewer repairs estimated at another \$9,492,900.

Town of Hackleburg: The Police Station and Fire Station were destroyed. Town Hall was severely damaged.

City of Cordova: Destroyed or heavily damaged structures included City Hall, the Library, Senior Center, Fire Station, Police Station, and the Industrial Development Office.

Economy- Unemployment and Business NAICS Code: The months following the tornado were marked by high unemployment in Alabama due to many businesses being severely damaged or totally demolished and having to shut down either temporarily or permanently. This involved a large area of impact and included businesses in all categories from commercial to manufacturing. A most comprehensive assessment of business damages came from SBA; however, SBA did not identify individual businesses or NAICS code.

A comparison of total unemployment for March 2011, March 2012, and preliminary data for June 2013, based on data developed by the Alabama Department of Labor, March 2011, the last month before the tornadoes, represents the baseline for a “normal” economic environment. Initially, the 43 counties showed significant increases in the unemployment rate, but over time their unemployment rates decreased as Alabama’s economy improved. Each county in the disaster area had double digit decreases in unemployment between March 2011 and June 2013.

Even in the most impacted counties, except for DeKalb and Franklin Counties, overall employment increased at close to or above Alabama’s employment growth. Smaller increases in employment were observed in the more rural counties of DeKalb and Franklin. However, the increase in employment and the drop in unemployment in the other rural county (Marion) were significantly better than for the 43-county disaster area. Unemployment trends for the 43-county disaster area were similar to the trends in the State’s unemployment.

The State of Alabama certified as part of its HUD Approved Action Plan that it will affirmatively further fair housing, which means that it will conduct an analysis to identify impediments to fair housing choice within its jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting the analysis and actions in this regard. (See 24 CFR 570.487(b)(2) and 570.601(a)(2).) In addition agreements with subrecipients will meet all civil rights related requirements pursuant to 24 CFR 570.503(b)(5).

Street Reconstruction

**Location Description:**

Town of Hackleburg

**Activity Progress Narrative:**

Some areas of pavement were found to show signs of raveling. The majority of the areas where raveling of the roadway was discovered has been repaired. Upon inspection of all roads included in this project to ensure all raveling was discovered and satisfactorily repaired, thermoplastic striping of the project roads will be completed and a final inspection will follow.

### Activity Description:

THE EDGE IS ECONOMIC DEVELOPEMENT INCUBATOR FOR ASSISTANCE TO NEW BUSINESSES TO CREATE JOBS.

### Location Description:

CITY OF TUSCALOOSA

### Activity Progress Narrative:

Comprehensive design meetings led by Ward Scott Architecture took place among City staff, The University of Alabama, and The Chamber of Commerce of West Alabama. To stay within budget, the architect was asked to proceed with value engineering. Design on the project is now complete. The City is expected to receive a clear transfer of title on land in the current quarter and then proceed to advertisement of bids shortly thereafter.
